

## SECRETARY TAFT EXPLAINS ORDER ABOUT TROOPS

PRESIDENT DECLINES TO SUSPEND DISCHARGES UNLESS NEW FACTS DEVELOP.

## BORNETS' NEST STIRRED UP

Mr. Roosevelt Says, Thus Far Nothing Has Been Introduced to Warrant Suspension of Order.

Washington, Nov. 21.—Secretary Taft today made the following announcement explaining his determination to carry out the order dismissing the colored soldiers of the Twenty-fifth infantry:

"In the matter of the order discharging the enlisted men of three companies of the Twenty-fifth infantry, issued by the President, application was presented to the secretary of war by a number of persons of standing, asking for a rehearing by the President of the grounds on which the action was taken. The secretary telegraphed the President of the application, and delayed the proceedings of the discharge until the President could indicate his wishes. The secretary was, meantime, called out of town. No answer was received from the President. The secretary on his return did not feel justified in further delaying the execution of the order of discharge, especially in view of the fact that the secretary then learned that the President had fully and exhaustively considered the arguments against the order of the persons who now apply for a rehearing. Accordingly, the secretary directed yesterday, Tuesday, that the proceedings for discharge be continued without delay."

Washington, Nov. 21.—A telegram was received from the President at 11 o'clock today, after the previous statement was given out at the war department in which he declines to suspend the discharges unless there are new facts of such importance as to warrant calling him. He states that the action was taken after due deliberation and that the only matter to which he can pay heed is the presentation of facts showing the original report to be in whole or in part untrue, or clearly exculpating some individual. If any such facts later appear, he can act as he deems advisable, but thus far nothing has been introduced to warrant the suspension of the order and he directs that it be executed.

New York, Nov. 21.—A cablegram from President Roosevelt declining to suspend his order discharging colored troops of the Twenty-fifth regiment unless the facts as known to him are shown to be false, but expressing his willingness to hear new facts bearing on that case, was made public by Gilchrist Stewart of the constitutional league.

"Unless facts as known to me are shown to be false, the order will under no circumstances be revoked, and I shall not for one moment consider suspending it on a simple allegation that there are new facts until the new facts are laid before me. Inform any person having new facts to have them in shape to lay before me at once on my return, and I will then consider whether or not any further action by me is called for."

## HOUSE DYNAMITED ARRESTS EXPECTED

Two Men Seen Running From Premises Just After the Flash of the Explosion Today.

Pittsburg, Nov. 21.—The two story brick residence of Mrs. Pauline Jones, colored, at No. 213 Water street, McKeesport, was wrecked this morning by an explosion of dynamite. The front part of the house was blown into the street. Two men were seen running away from the place just as the flash occurred. Mrs. Jones was badly burned and otherwise injured. Six other women in the house were greatly frightened and several sustained slight injuries.

Mrs. Jones had recently purchased the property and believes the dynamiting was prompted by revenge. Arrests are expected.

## DENMARK AND GERMANY.

London, Nov. 21.—Denmark and Germany have entered into an agreement to close the Baltic sea to fleet hostile to Germany in time of war. It is said a treaty has been drawn. The purpose of the present visit of Denmark's king to Berlin is said to be its ratification. The treaty says Germany will guarantee the integrity of Denmark in return for the closing of the sound between Denmark and Sweden.

## ARSNEIC FOUND IN MANY BODIES MANY ARRESTS OF MEN AND WOMEN

BUDAPEST, Nov. 21.—(Bulletin)—An epidemic of poisoning has just been brought to light in the village of Enez. Probably a score of ill-mated husbands and wives have been murdered by their dissatisfied partners. The authorities have exhumed 25 bodies and arsenic was found in 18. Four women and nine men have been arrested.

## SEVERAL PEOPLE KILLED AT ROCHESTER

ROCHESTER, N. Y., Nov. 21.—By the collapse of a newly completed building at the plant of the Eastman Kodak company this morning, three men were killed and eighteen others were so badly hurt that several will probably die. The building was a brick shell with concrete reinforcements. The supports were taken away this morning. The concrete had not dried and the walls fell, burying 21 workmen. Fire broke out in the ruins immediately after the walls collapsed.

## TELLER EVERLY ADMITS \$25,000 THEFT.

St. Louis, Nov. 21.—H. Everly, former teller of the St. Louis Union Trust company, who disappeared July 13 and since has been indicted on a charge of embezzling \$5,000, was arrested Tuesday near Morrison, Colo. He was working with a threshing machine crew when a St. Louis detective found him. He said he had had a hard time and was willing to go back. Everly, according to the detective, made a complete confession to him admitting that he had taken \$25,000.

## STATE CLAIMS GILLETTE KILLED GIRL THEN TOSSED BRUISED BODY INTO LAKE

Herkimer, N. Y., Nov. 21.—"Chesler F. Gillette murdered Grace Brown by beating her to death and when he tumbled her bruised and bleeding body into the waters of Big Moose Lake, he concealed the revolting evidence of a double crime."

That is the contention of the state's attorney who seeks today by medical testimony to prove that Grace Brown was dead before being thrown into the water. The state, it was learned today, will endeavor to show that an assault of almost unbelievable brutality was made upon the frail little girl in the boat by Gillette. "The girl's body was covered with bruises which she received in her death struggle with Gillette, who, the prosecutor alleges, struck her down with a horn handled umbrella, and then rained a shower of heavy blows upon the quivering body with a tennis racket."

The result of the autopsy shows this revolting attack was made, the state declares. The day after the crime, a witness testified today, Gillette was seen carrying a tennis racket in the woods. The tennis racket was found later buried near a clump of trees. Gillette is slowly breaking down.

## EXTORTIONERS BUSY IN PITTSBURG, PENN.

Pittsburg, Nov. 21.—Following the murder of a member of the Black Hand society here by an Italian who had been threatened with death if he failed to pay the society \$500, Leon Sadowski, a prominent physician, and J. M. Nowak, a banker and financial controller of the Polish National Alliance, received letters from the Black Hand society demanding \$1,000 and threatening death unless they accede to the demands of the society. The Polish residents of the city are greatly excited over the matter.

## SEVEN ITALIANS ARE KILLED BY LANDSLIDE

Bluefield, W. Va., Nov. 21.—Seven trackmen of a gang of 19 engaged in removing a slide on the Dry Fork branch of the Norfolk & Western railroad were killed as the result of a big slip of land. The men were swept down the mountain side and into the river. Twelve escaped. The bodies of four of the victims were recovered and three of the bodies are buried under hundreds of tons of earth. All of the victims were Italian laborers and were known only by numbers.

## VAUDEVILLE MANAGERS OFFER BONI 20,000 FRANCS WEEKLY TO GO ON STAGE

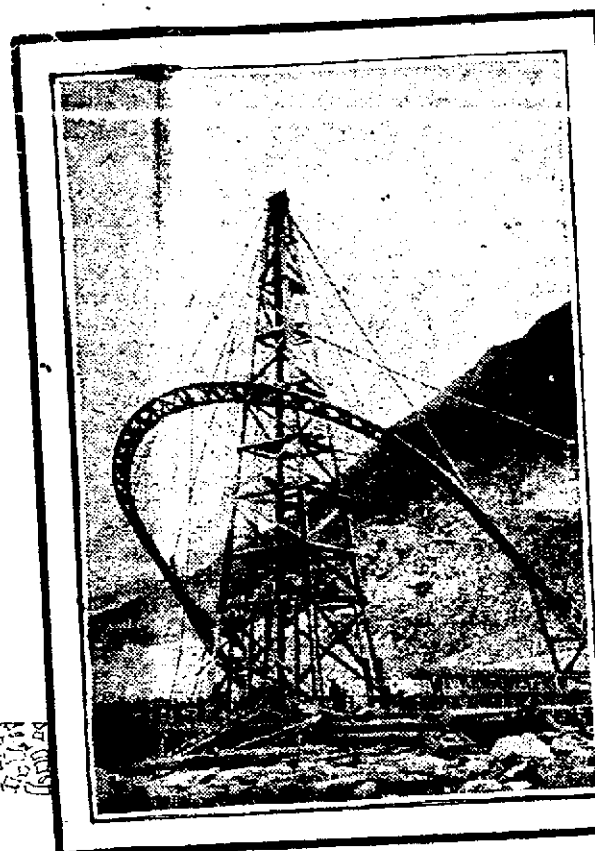

Mr. B. F. Keith

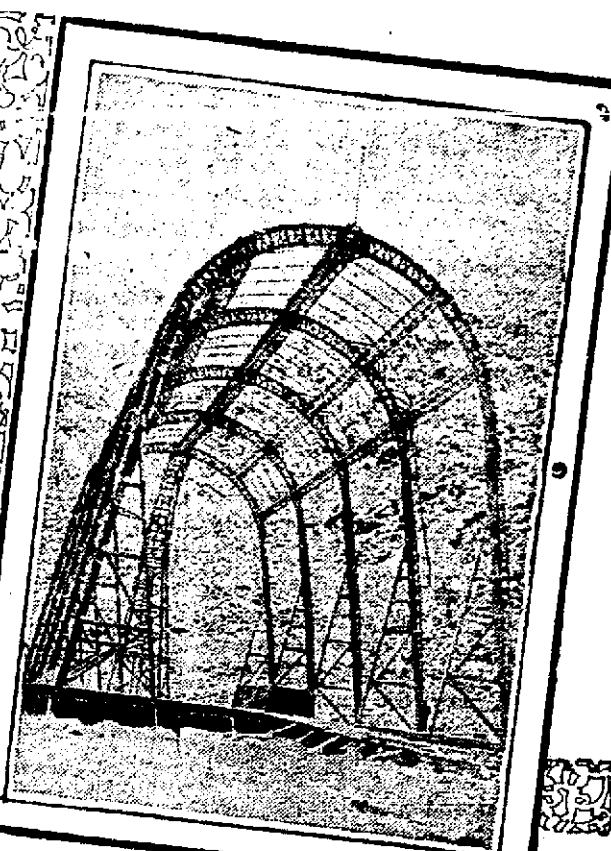

Mr. F. F. Proctor

NEW YORK, Nov. 21.—Keith & Proctor, vaudeville managers, today cabled Boni de Castellane offering him 20,000 francs weekly to demonstrate swordsmanship, promising an engagement of more than 20 weeks.

## WALTER WELLMAN FEELS SURE HE WILL REACH POLE NEXT SUMMER AND SAYS HE WILL GO BY AIR ROUTE

RAISING THE FIRST ARCH OF THE GREAT BALLOON ROUSE

THE WOOD AND STEEL FRAME OF THE WELLMAN BALLOON HOUSE IN SPITZBERGEN. THE FRAME IS TO BE COVERED WITH OILY CLOTH 10,000 YARDS OF CLOTH REQUIRED

New York, Nov. 21.—Walter Wellman, who succeeded last summer in establishing a base on Spitzbergen for his airship expedition to the North Pole is again in New York, confident that he will be able to sail over that coveted goal of explorers next summer.

Mr. Wellman, who was accompanied by his chief aid, Major Hersey, expects to start from Spitzbergen in July or August and reach the pole within a day or two.

Difficulties in getting his base ready and defective construction in his airship Mr. Wellman blames for his inability to make a start last summer. These, however, he said, had not surprised or disappointed him, as he had chartered his vessel with an option on a third, and the work of preparation had been arduous.

"With the Arctic summer so short," he said, "we could scarcely do more

than establish our base. When Major Hersey reached Spitzbergen on June 21 everything was still frozen up and he had to metaphorically take the skipper of the vessel by the throat to get him to enter the little bay the shore of which he had chosen for the site of our camp.

"The valley where Andree had inflated his balloon for his ill fated expedition was full of ice and snow and a lot of dynamite had to be used before we could put down our foundations. This took time."

"I reached Spitzbergen with the aeronautical part of the expedition on July 9. Altogether we landed 600 tons of supplies, having to use lighters for the work, as our vessel couldn't get within 200 yards of the shore. Our 50 men worked hard until September, when we completed our balloon shed, the largest in the world; our machine shop, engine room and living quarters. The frame

work of the balloon shed is constructed of steel and is ready at any time for a great canvas cover, comprising 10,000 square yards of material, to be stretched over it. The shed is 185 feet long by 85 high and 85 wide.

"Mr. Peary has demonstrated, I think, the impracticability of making the pole by sledging with dogs over the ice. He is perhaps the most efficient in the world today of Arctic sledgers. He always maintained that if he could establish a base on the shore of Grant Land and get an early sledging start he could attain the pole. He accomplished the former the last time, but fell three degrees short of his goal. If he cannot reach the pole in that way I do not believe anybody else can."

"We shall return to Spitzbergen in May and expect to be ready to 'set sail' in our airship during July or the early part of August."

## RAIN FALLS STEADILY FOR 60 HOURS

PETERSBURG, Ind., Nov. 21.—For sixty hours rain has been falling steadily here. All streams have left their banks. The White river rose 12 feet last night, and continues to rise 1-2 foot an hour. The Patoka river is running through the county on a rampage and thousands of acres of corn in the Patoka river bottom are in danger of being lost.

## STANDARD OIL TROUBLES BREAK OUT IN EUROPE

GIANT TRUST TO BE FOUGHT BY CONFEDERATION NOW BEING FORMED.

## SUBPOENAS FOR DEFENDANTS

Sent Out From St. Louis Today by Clerk of United States Court. Agent Fails Utterly.

Rome, Nov. 21.—The prosecutions instituted in the United States against the Standard Oil company and its officials are not the only troubles which the Rockefeller trust must face. It is to be fought vigorously in Europe and the Italian government has given final impetus to the movement by deciding to join a European confederation tending to combat the oil trust. The government intends to abolish the existing duty on crude petroleum which has enabled the Standard to control the Italian market. This will allow the Rothschilds, Nobel, Mendelssohn combination, which is planning to exploit Russian oil, to oust the American concern and capture the trade. A Standard agent working near Bonn, failed utterly in an attempt to buy oil claims.

St. Louis, Nov. 21.—Subpoenas for the defendants in the government's suit against the Standard Oil monopoly, will be sent out today by the clerk of the United States Circuit court. Writs against John D. Rockefeller and six other officers and directors in the Standard Oil company go to the United States marshal of New York City for service. Subpoenas for 71 corporations and partnerships go to different courts in the districts of New York, Ohio, Pennsylvania, New Jersey, Kansas and other states.

Harry Marshant, 9, dropped dead at school in Toledo, O. Cause unknown.

## FIFTY KNOWN DEAD

Parties Still Searching Along Shores in Vicinity of Point Where the Dix Went Down.

Seattle, Wash., Nov. 21.—To the death list of the wrecked steamship Dix eight new names have been added, making the total of fifty known dead as a result of the disaster. Parties are still searching along the shores in the vicinity of where the Dix went down. The local United States marine inspectors have begun an investigation of the wreck.

## USED MAXIM GUN

Desperate Attempt Made by Social Revolutionists to Murder Odessa Police Commissary.

Odessa, Nov. 21.—A desperate attempt was made here by a band said to be composed of social revolutionists to murder the commissary of the Odessa police. The band did not desist until the police had opened fire on it with a maxim gun, killing three men and wounding three more. The others escaped. Another band composed of terrorists seized \$2,000 in the office of the Russian Navigation company. Before taking this money the band killed a police official.

## RUSSIAN SCANDAL

In Connection With Distribution of Government Funds for Relief of Stricken Provinces.

St. Petersburg, Nov. 21.—A scandal in connection with the distribution of government funds for the relief of the famine-stricken provinces, entailing the purchase of great quantities of grain, is being aired in the liberal press, which charges that a contract for \$5,000,000 worth of wheat at a price of 4 cents per bushel above the market rate was given to an obscure individual named Lidval, and whose only recommendation was his private friendship with M. Gurko, vice minister of the interior, who is in charge of the famine relief. It is insinuated that Lidval was merely a street bidder acting for Gurko.

## NEWARK'S PROPOSED POSTOFFICE SITES ARE REJECTED

IT IS CLAIMED THAT THE PRICES FOR THE SAME WERE TOO HIGH.

Also That Newark Should Have Offered More Sites—Some Other Cities Donating Sites.

Washington, D. C., Nov. 21.—Your correspondent learns upon unquestionable authority that the matter of the new postoffice building at Newark, Ohio, which has been for some time under consideration of the supervising architect of the Treasury Department, has been indefinitely postponed. It is said that the prices demanded from the government by owners of postoffice sites in Newark are prohibitive from the government's standpoint.

A point raised is that more sites should have been offered so that there would have been a better opportunity to select one that would have been entirely satisfactory to the government and the city of Newark. This means that the whole subject will have to be opened again, probably entailing a considerable delay. It is noted that some other cities for which appropriations were made in the bill passed at the last session have donated the site for the postoffice building. Among these cities are Marietta, Ohio. The appropriation for Newark and Marietta was the same in amount, \$50,000. The probability is therefore, that the cities which have donated the sites will secure the erection of their buildings in the near future, as the amount appropriated will doubtless be sufficient to meet the cost of the buildings alone.

## PANIC IN THEATRE

Short Circuit of Wires Exploded the Lights and Plunged Bernhard Theater in Darkness.

Paris, Nov. 21.—There was a slight panic in Sarah Bernhard's theater shortly before midnight. A short circuit of wires exploded the incandescent lights and plunged the house in darkness, whereupon the audience rushed for the doors and there were cries of fire. The outbreak of the actors and actresses, however, soon restored calm, but not before one woman had been severely and several slightly hurt.

## TOM PLATT TO STAY IN SENATE "FOR A WHILE"

NEW YORKER HAS ENGAGED HIS APARTMENTS AT WASHINGTON FOR SEASON.

## FORMER ACTRESS TO AID HIM

It is Reported in Suit Brought by His Wife—New Chapter in the Domestic Affair.

New York, Nov. 21.—Senator Thomas C. Platt "handed a lemon" to Timothy L. Woodruff and other Republican leaders who hoped to succeed him in the senate by letting it be known that he is not going to resign. At least "not yet." According to the Senator's plans he will serve out the coming session of congress and at its end he may begin to consider the subject of resignation.

The news came by way of Washington. A dispatch was received by one of them to the effect that Senator Platt had reserved his rooms in the Arlington there for the whole session. Immediately on the receipt of the dispatch inquiries were made in this city, and the truth came out. Platt would not consent to an interview on the subject, but one of his friends declared that the news was true.

The tidings seriously disarranged plans which were making in the Republican organization to name Platt's successor. The managers had been given to understand that he would resign soon, to take effect the first of next January, so that the legislature could elect his successor. Efforts were made to get the legislators in line for certain candidates, and the party was dissolving into groups backing different men, in preparation for a struggle in the Legislature.

Now all this will be changed, for if the Senator serves through the winter the legislature will have adjourned before he resigns, and if he retires after the session of congress Governor-elect Hughes, who then will be in the executive chair, will appoint his successor and the next legislature will fill the vacancy.

This means that the senatorial question will become an issue in the campaign for assemblymen next fall, and that if Mr. Woodruff is to gain the toga he must elect a majority of the assemblymen.

Chicago, Nov. 21.—Carrie Meyers, once famed as the closest friend and inseparable companion of Carrie Thompson, former star of the "Black Crook," and now the wife of Senator Thomas C. Platt, starts for New York within the next few days to reveal the past life of Mrs. Janeway Platt, and to add new excitement to one of the most sensational scandals of the age. Agents of the senator found Miss Meyers, long supposed to be dead, living quietly in Chicago, and at once obtained her promise to go to New York as a leading witness in the Platt divorce trouble.

Senator Thomas C. Platt has not surrendered to his wife and the big settlement of \$300,000, alleged to have been transferred to the former Mrs. Janeway, was only a figment of the imagination. The real Platt domestic fight is only just beginning, and, through the agency of the Chicago woman, the developments yet to come promise to be far more sensational than anything yet revealed in the great scandal of the year.

If Carrie Meyers wrecks the dreams of Carrie Thompson-Janeway-Platt, the Chicago actress will have settled a debt of vengeance held through half a generation. One night, when the old "Black Crook" was at the height of its success, the two Carries met a party of congenial souls—men who had money and the desire to spend it.

Richest and most reckless of the gathering was a man named Baker. He vowed devotion to both the Carries, and here was where the life lines of Carrie Thompson and Carrie Meyers began to draw apart forever.

It is said that Baker promised, during that wild evening, to take Carrie Meyers to New York and to introduce her to Senator Platt. Carrie Meyers, so the story goes, lunked all and everything upon Baker's promise, and in fancy saw herself Platt's bride and a New York social queen.

A few days later—thus the tale is told—Baker took Carrie Thompson, instead of Carrie Meyers, to New York, and it was Carrie Thompson, not her friend, who met and won "Tom" Platt.

Messenger Robbed.  
New York, Nov. 21.—Floyd Kibler, a 15-year-old messenger employed in the Jersey City office of the Standard Oil company, was knocked down and robbed of \$1,200 belonging to that company while carrying it from the office to a bank in Jersey City.

## THIS AND THAT

### Turkey Gobbler Time.

A song is borne upon the breeze,  
That doth mine ear delight,  
When nuts are ripening on the trees,  
And thisle pods are white.  
No cadence clear of ringing bells,  
No music set in rhyme,  
But just a symphony that tells  
'Tis turkey-gobbler time.

What vistas open to my view!  
What glorious dreams arise!  
A mug of cider, sweet and new,  
A row of pumpkin pies.  
The glad Thanksgiving's golden store  
This year is at its prime.  
Hurrah! hurrah! hurrah, once more!  
'Tis turkey-gobbler time.

—H. I. Drumm.

Thornville, O., Nov. 21, 1906.

A young man recently married was approached by a witty friend the other day with this greeting: "Well, have you succeeded in saving that woman to death whom you married a short time ago?"

Dear reader, have you seen a "white wing" or any other form of street cleaner on any of the Newark streets since election day?

Clerk L. B. Munch of the city council has a peculiar ailment. He has broken his fingernails off close to the "quick" by pounding on typewriter keys. More evidence that political jobs are no snap.

Mr. Vernon high school girls pounced upon a Zanesville football player and robbed him of ten or a dozen blankets. The school principal learned who the girls were and assessed them \$1 each to pay for the blankets. A very unladylike "stunt" for high school girls.

Did you ever see the Newark streets sloppler than they have been during the past few days? A section of fire hose used from the hydrants on the square and streets adjacent would improve matters a whole lot.

Creston Clarke, "The Ragged Messenger," broke season's record at the Park Theatre, Philadelphia, last week.

The hunting season opened with a death list of ten birds, six rabbits and seven men shot. Looks like a race war bulletin from Atlanta.

Last year the local Salvation Army gave to the poor on Christmas morning 56 baskets each filled with ample provisions for a family of five. This year Captain Wilson hopes to make

the number 100. He intends to have a big Christmas tree for the children, too, and is now laying plans for the event. Assistance is earnestly solicited.

Farmers predict an unusually cold winter. The corn husks adhere closer than usual to the ears. The farmers are also complaining that their ears of corn are too long for the sheller.

Mr. Widower (introducing the second Mrs. W.)—Come, children, and kiss your new mamma.  
Else—My gracious! If you took her for "new" they stuck you, pa.—Philadelphia Press.

A well known Newark physician, who is noted for his gallantry, went hunting on Tuesday, and after tramping over many miles of stubble succeeded in bagging two quail and two small woodpeckers. On returning to the city he started for his home anticipating a feast of quail and toast. On the way home he met a charming young lady to whom he related his good luck. She expressed herself as being very fond of quail and threw out a broad hint that she would make no objection should he present her with the two birds. The gallant young physician was unable to withstand the appeal and presented her with the birds. He had broiled crow for supper.

Count Doul, ex-husband of the former Miss Gould, is said to have disappeared from Paris. Perhaps he's started to Paris to accept the restaurant job. Will the immigration inspectors let him in?

## AMERICAN PORK

Barred From France by a Preliminary Customs Decision.

Paris, Nov. 21.—The elimination of the microscopic examination of pork from the new American meat inspection law has resulted in a preliminary decision by the French customs authorities barring American ham, bacon, canned pork, etc. After long diplomatic negotiations, several years ago, France agreed to admit American pork on a government certificate that it had been microscopically examined and found sound. When, therefore, the new regulations instituted after the packing disclosures, and under which the first shipments are now on their way to French ports, were submitted to the authorities here they ruled that they did not comply with the old agreement, and prompt measures were instituted to secure their reversal, and if possible avoid prolonged unpleasant diplomatic negotiations.

The imports of tea to this country last year amounted to 105,500,000 pounds.

## STATE NEWS

### Horse Terrorized Shop.

Cleveland, O., Nov. 21.—A fractious horse terrorized the occupants of a blacksmith shop, in which it was running loose. Snorting with anger, it drove Joseph Sinecane into a corner and kicked out his brains, despite the efforts of several other men to save him. Turning upon the would-be rescuers the horse selected Daniel Sinecane, a brother of the dead man, and kicked him on the head. His injuries are pronounced fatal. John Bevers attempted to open a door and drive the frenzied animal out, when it wheeled and kicked him in the stomach. Physicians say his recovery is doubtful. Through windows and doors others escaped from the shop.

### Secretary Root to Speak.

Cincinnati, Nov. 21.—The Commercial Club of Cincinnati has issued invitations to the various representatives of the South American countries accredited to Washington on the twenty-sixth anniversary dinner of the club, Friday evening, at which Secretary of State Root will be the guest of honor. The South American diplomats invited are Ignacio Calderon, Bolivia; Felipe Pardo, Peru; Enrique Cortes, Colombia; Mr. Guergel de Amara, charge d'affaires Brazil legation, and Alberto Yocham, charge d'affaires Chilean legation. Governor Harris has been invited to be present to represent the state of Ohio. Members of the club believe that most of the diplomats invited will accept.

### Wife's Plaintiff.

Cleveland, O., Nov. 21.—Because, as she alleges in her petition, she had to sleep with dogs, and because said dogs were accorded privileges denied her, Mrs. Elizabeth K. Yarger asks a divorce from her husband, William. She says William has a mania for dogs and always has 20 or more of them lying around the house. She had to serve as chief for them and could not sit down to her own meals until the pups had been gorged. This was all well and good, she says in her petition, until Bill started to take them to bed with him. That is where she quit.

### Commander Brown Present.

Toledo, O., Nov. 21.—Several hundred veterans of the civil war met here and participated in an old-time, campfire given under the auspices of Forsyth Post, G. A. R. This is the fortieth anniversary of the birth of the order. The purpose of the meeting was to get civil war veterans who are not members of a Grand Army post interested in the organization. Several veterans spoke, among whom were Commander-in-Chief R. B. Brown

of Zanesville and Department Commander G. A. Harmon of Lancaster, who were guests of honor.

### McClelland's Move.

Columbus, O., Nov. 21.—E. G. McClelland, Republican candidate for congress in the Toledo district, defeated 23 votes by General Isaac R. Sherwood, who ran on both the Democratic and independent tickets, engaged the former attorney general, J. M. Sheets, to contest granting a certificate of election. McClelland will ask the state canvassing board, composed of the governor, secretary of state and chief justice of the supreme court, to award the certificate to him. The claim will be made that the Dana law was not actually repealed.

### "Wets" Defeated.

Columbus, O., Nov. 21.—Clinton township, north of this city, is to remain dry for the next two years. By a vote of almost two to one the "drys" carried the election which was held in the six precincts of the township Tuesday. The total vote was 1,400, and of this number the drys received 926 and the wets 440.

### Miniature Rebellion.

Cincinnati, O., Nov. 21.—The Grand View sanitarium, Price Hill, was the scene of an outbreak by three insane patients. Two male attendants were badly injured and Lieutenant of Police Kane and a detachment of patrolmen were called in to quell the miniature rebellion. William McCall, a patient from Kentucky, precipitated the outbreak.

### Fire Destroys Mail.

Mansfield, O., Nov. 21.—A combination mail and express car on east-bound Pennsylvania train No. 2 took fire here and was practically destroyed with 1,000 to 1,500 letters. The mail destroyed was transfer mail, being received from other cities for delivery along the Pennsylvania road between Mansfield and Wooster.

### Man Hunt.

Ashland, O., Nov. 21.—The farmers of the southern part of Ashland county are hunting for George Baker, 25, who is accused of assaulting Doris Messner, 13. Baker worked for Messner. Neighbors talk of a lynching in case Baker is found.

### Received Life Sentence.

Portsmouth, O., Nov. 21.—Jared Hughes, who killed his wife, Flora Hughes, and her paramour, John Barr, Aug. 25, pleaded guilty to second degree murder. The state accepted the plea and he was sentenced to life imprisonment.

### By Escaping Gas.

Bridgeport, O., Nov. 21.—Four small children of William Gallagher of Martin's Ferry were overcome by escaping gas. All are living, but three are in a serious condition and two hardly expected to live.

### Butler Recaptured.

Toledo, O., Nov. 21.—James Butler, one of the trio who picked the locks of the county jail at Bowling Green last week and escaped, was captured in Detroit by Toledo deputy sheriffs.

## CIVIC IMPROVEMENT

### Educational Notes.

"The new grouping of social forces which express much of the hope for better things in American municipal life, is becoming best known as Civic Improvement. Civic Improvement for the time being may mean, a better school building, street cleaning, tree-planting, competent city officials, home gardening, a free library, tree lecture courses or whatever promises to rally the social forces or lead to higher ideals and larger possibilities.

"The good citizen should know the laws and institutions of the town; should pay his taxes cheerfully, promptly and completely; should attend caucuses and help steer good men into office and bad men out. If sought for office he should accept it, however humble. He should speak out when things go wrong. He should adorn his home with flowers and shrubs, keep his paths shoveled and sanded when icy."—G. Stanley Hall.

Women's clubs every where are giving considerable attention to educational matters. All phases of the new education, the betterment and equipment of buildings, the relation between school and community and other problems, are being put into the hands of working committees. A notable development in the founding of scholarship funds.

### Duties of Good Citizens.

The National Educational Association, 1905, says in its report: "The association regrets the revival in some quarters of the idea that the common school is a place for teaching nothing but reading, writing and ciphering. The ultimate object of popular education is to teach the children how to live righteously, healthily, happily, and that to accomplish this object it is essential that every school inculcate the love of truth, justice, purity and beauty through the study of biology, history, ethics, natural history, music, drawing and manual arts."

Among the most feasible and fruitful agencies of supplementary education are: Reading rooms, with attention given to the suggestion and direction of reading, museum exhibits, libraries, reading courses, educational lectures; educational clubs.

The decoration of the schoolroom is one of the most important means of teaching art.

There is a great deal more of ill-health among teachers than school boards and the public dream of—for under the most propitious conditions (the work in the modern public school is not conducive to health. Why so? The life of the conscientious, progressive, enthusiastic teacher is a most strenuous one. When is her work done? What with preparing for teachers' examinations, improving professionally, broadening the life, teachers' meetings, associations, and summer schools, in addition to overcrowded schools, extra hours with parents and children, preparation of work for the morrow and pouring over piles of work to be corrected—the most nerve-consuming of all teachers' duties. Then the mechanical difficulties under which she works. The hygiene of the school room is yet far from ideal; uneven temperature; dazzling or gloomy wall-coloring; poor ventilation, crayon dust. Then add the long standing on the feet, the daily grind of discipline, fear of displeasure of superintendent or school board, and less of position. Is it any wonder that teaching in public schools undermines the health? In its very nature teaching under the best conditions is hard work.

### A Question.

At a teachers' conference one of the principals arose to propose the toast, "Long live the teachers." "On what" inquired a meagre, pallid young assistant in a hollow voice.

A movement has recently grown up in different sections of the country called "The School Extension Movement," which has for its underlying purpose the improvement of the public schools. There are various branches of this society in our cities and towns—some of these branches among the Women's clubs. In New York "The Public Education society" has been investigating the conditions in the public schools of that city. The rapid growth of New York, the enormous foreign population, the changed conditions of residence, had made it necessary for cultivated and thoughtful people to send their children to private schools. The first work of the visiting committee was the examination of the physical condition of the buildings. They were asked to observe the conditions pertaining to: attendance,

overcrowding, playgrounds, manual training, kindergartens, location of buildings, nearness of liquor saloons, stairs, fire escapes, ventilation, light, heat and cleanliness. The good that followed cannot be measured. Meanwhile other committees were at work. Lectures from prominent educators were given weekly. The co-operation of the board of education and the press was sought. The co-operation of parents and their conference with teachers was encouraged.

Some one has said that Germany has taught the world three things: that all teachers must be professionally trained and have social rank; that they must receive permanent appointments and that children of lawful age must attend school.

The November meeting of the Civic Improvement society was unavoidably postponed until December 4th. The prize essays written by school children on civic improvement will be published and prizes awarded next week.

## MR. J. F. KELLER IS AUTHORITY ON POTATOES

While there are counties in Ohio that produce a greater total yield of potatoes than Licking, few of them show as great an average yield per acre; and when quality is considered Licking county stands in the front rank. Having taken more premiums at the Ohio State Fair during the past three years than any other county.

Mr. J. F. Keller is not only the county's largest potato grower but furnishes a very large part of the stock exhibited at the state and county fairs from this county. Mr. Keller is widely known as a writer on general topics and on the subject of potato culture. He is recognized authority in every potato growing section of the union. Editors of the leading agriculture journals realize the fact and as a result the publishers of the Ohio Farmer of Cleveland have contracted with Mr. Keller to prepare a series of articles on "Field Potato Culture," to be published as one of its specialties during the coming year. They have engaged other experts to handle the various farm subjects, the whole to comprise a list of specialties of 1907.

Through Mr. Keller's painstaking efforts and the fine results following his work in producing stock of exceptional merit, his potatoes are now sold mostly as fancy stock to growers. This season he has filled 150 foreign orders covering nearly all the territory from Iowa and Florida to New York. His famous "Keller's Improved Green Mountain" potato leads in sales by 20 to 1, and he thinks in five years it will have displaced nearly all other varieties, as he says it is the only potato without a weak point.

Mr. L. H. Martin of Alexandria planted eight potatoes of this variety, and harvested 37-4 bushels. Mr. Keller has never been able to grow enough of this variety to fill his shipping orders.

He is an able exponent of the topics he will discuss and will prove of profound interest to all who may hear him.

**Two Interesting Documents.**

An Advocate reporter was shown two interesting papers by Mr. Ernest T. Johnson Wednesday. One of the papers was the muster roll of Co. C, 135th O. V. I., of which Mr. Johnson's father, the late Luther J. Johnson, was Captain. The other paper was the original report of Captain Johnson to Col. Andrew Legg, formerly of this city, concerning the death of Sergeant Thomas M. Gregory, who was the first man of the company to be killed. Mr. Gregory, previous to enlisting in the army, was a young Newark attorney, and was killed on skirmish line near Maryland Heights, July 6, 1864. Mr. Johnson has turned

**Tonsilline Prevents Diphtheria**

Diphtheria is the most dreaded disease of childhood, because it is so often fatal. It is invariably preceded by Sore Throat—nature's danger signal. At the appearance of Sore Throat the first thought should be its instant cure. Don't regard it lightly—don't think it may be gone tomorrow. An hour's delay may bring fatal results. What good doctor in his practice now advises delay or thinks lightly of any Sore Throat, especially in children? Modern medication wisely endeavors to quickly control and cure the simpler forms of disease—it's so much easier and so much safer than waiting for the graver diseases to follow. It is right here and in this way that TONSILLINE has its greatest value. Tonsilline will positively cure the Sore Throat and thereby prevent the dread disease—Diphtheria. Tonsilline is the one remedy, sold largely throughout the United States, exclusively for the cure of Sore Throats. Its field is limited but it does its whole duty every time. We know of no case where it has failed during its years of use in thousands of homes. Buy a bottle today and have it ready for instant use. Tonsilline is the stitch in time. 25c and 50c at all druggists. The Tonsilline Co. Canton, Ohio.

**Over-Work Weakens Your Kidneys.**

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle mailed to you free of charge. Send out for it if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Birmingham, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root and the address, Birmingham, N. Y., on every bottle.

		<b>GREAT SOUTHERN THEATER.</b> There is scarcely a theater goer but is familiar with the regular attendance of the stage version of "Ben Hur." Klaw & Erlanger, who gave this great production to the public, have just made an incursion into the field of comic opera which has proven to be to that style of entertainment what "Ben Hur" is to drama. This is no other than the production of "The Grand Mogul," a comic opera from the pen of the composers of "The Prince of Pilsen," the musical comedy which has been on the stage for seven years and which is acknowledged to be the best one ever written. The authors of this favorite of the public, Frank Pixley and Gustav Luders, have given three years to the composition of "The Grand Mogul," and they give the assurance that it is their master piece. The story concerns the experiences of a circus side showman who becomes "The Grand Mogul" of an island. The impersonation given by Mr. Moulton of this character is said to be one of the most effective comedy portraits ever worked out on the stage. The fact that the action all takes place in tropical countries has been taken advantage of in providing costumes of the most brilliant and artistically combined hues. Taken from every point of view, this production is bound to attract a patronage similar to that enjoyed by "Ben Hur" for, in its own field, it is equally as notable an achievement. The management of the Great Southern Theater urges any one fond of stage entertainment provided by the highest form of comic opera with an element of musical comedy, not to fail to witness a performance of "The Grand Mogul" for it is a production bound to stand out apart from the others as one of the very best things the season will offer. Friday and Saturday, and Saturday matinee.

**ANOTHER INVESTIGATION.**

Chicago, Nov. 21.—James J. Hill and the three great railroads he dominates are to be investigated by the Interstate Commerce Commission. What are the relations between the Great Northern, the Northern Pacific and the Burlington systems? An effort is to be made to find out. The commission will seek to ascertain what effect the control of all these lines by one man has had and is having upon rates in the northwest.

A Paris journalist has founded a "babes' club." It is a spacious and pleasant building with a garden and a club house where games of billiards are provided. There are a piano and a juke box, with a bar.

The largest birds' nests are to be found in Australia. The Australian juncos build for nests great mud nests, 15 feet in height and 125 or 150 feet in circumference. Grass leaves and other vegetable matter are used in the construction of the nests which easily weigh a ton. The Australian brush turkeys working in colonies build pyramidal nests even larger. One of these nests, on being removed, filled several carts and its total weight was five tons.

A Nebraska paper is still carrying an advertisement of garden seeds. This is one reason why advertising pays.

### TOLEDO CITY'S INJUNCTION CASE

**FIRST ROUND IN BATTLE BEFORE SUPREME COURT AT COLUMBUS.**

Favors the City and Against Contractors of Filtration Plant. Final Hearing in January.

Toledo, O., Nov. 21.—The Supreme court of Ohio yesterday overruled the motion of Smith & Baker, counsel for the Norwood Engineering company to strike from the files the bill of exceptions recently placed on record there by City Solicitor Northup, on behalf of the city. The papers concern the filter plant case, in which Northup is endeavoring to have declared invalid the contract the board of public service made with the Norwood company for the building of a water filtration plant on the river site.

Had the Supreme court sustained the motion filed by the filter company's counsel, the case would have ended, for Northup could have done nothing more.

Now, however, the issues are clearly defined, and the filter case will be heard on its merits before Supreme court some time in January, 1907.

Two important issues in this case affect the powers of the Board of Public Service in making contracts without the approval of the City council. One of these points is that the board had no power to make the contract for the filtration plant until the plans and specifications for the same had been adopted and approved by the Council. Another point in issue is that the board made a contract for a plant that, when completed, would cost more money than the city had authorized or appropriated for the purpose.

A reward of \$5,000 is offered for the capture of the man who impersonated a Pittsburg millionaire. The fact that the impersonator has not been induced by the offer to let somebody make a show of capturing him for a share in the amount of the reward shows that he has some misgivings about becoming publicly known as having for the moment posed as a Pittsburg millionaire.

## COULD WE LIVE 100 YEARS

The Secret of Long Life is Not in How We Eat, But in What We Eat.

Most people wouldn't want to exist for that length of time, but most of us want to live, to say at least seventy-five years, to enjoy the well-earned rest of toil.

We can't live even to that age unless we take care of our stomachs.

The American has a longer life now than he had 50 years ago—statistics say so, and it must be true.

Why is it? Not because he works harder, but because he takes greater care of his machine—his body, machine.

He has learned that it is a sin to overwork and burn out the stomach with too much heat producing material,—meat, for instance.

Heat is not strength, it is weakness.

Muscle and bone is the strength we need. The heat part will then come naturally and never be excess. Let us not hunt for it.

The hot stomach makes the brain hot.

The hot brain makes dullards of the quick.

Wheat!

The purest wheat, the wheat with the starch, the albumen and the fibrin! This is the fighting material millions are buying today.

Wheat grains have a shell. The shell is not good to eat. You cannot digest it.

It makes the stomach work overtime.

Buy the purified wheat, the nearly grain from which the chaff, the hull and the husk, and everything not rich and delicious is thrown out.

That is Hardyfood.

Every part of it is consumed by the body and taken into the blood to make tissue.

It doesn't make clinkers but it will make you over.

It will give you a new stomach, and clear out your kidneys. What will be the result? You will have better digestion, no constipation, full nutrition.

You will endure hardship better because it will give you power and strength in muscle and brain force. Your mind will be clear, active and healthy.

Hardyfood is cooked ready to serve.

Eat it with cream, you will find it delicious.

The stomach grabs at it, that is why it satisfies you.

Remember that Hardyfood has all the good that meat has, and three times more.

Meat has a small part of what wheat has, and three times less.

But you needn't stop eating meat altogether. A little now and then is needful. But cut down your allowance and try Hardyfood.

From the time you try your first package of Hardyfood, your history will begin.

Your grocer will sell you a package for 10 cents.

## RESISTANCE

To the Taking of Church Inventories Became Violent at Pignat—Troops Called.

Montpelier, France, Nov. 21.—Resistance to the taking of church inventories was general throughout the department of Hercul. Violent resistance occurred at Pignat, where the church was filled with the fumes of burning sulphur, which was shoveled into the building from the vestry and the roof and again and again forced out the soldiers, while a crowd of men and women shouted maledictions at the troops and hurled stones and flower pots at them. The church was finally cleared by a charge of infantry. At St. Bazille the church bells were wildly rung, summoning the clerical, who surrounded the church. The force at the disposal of the prefect was not sufficient to attempt taking the inventory. The church at Couronsee was barricaded and the parish priest defended the door, but the military engineers cleared the way. At Grabels it was also necessary to batter in the church doors.

## FREE AMBULANCE SERVICE HERE

THREE WAGONS EVER READY FOR INSTANT USE WHEN NEEDED.

In Nearly Every Other City Private Ambulance Service is Paid for at Set Price.

This is an age of the world when the wage earner is almost constantly in danger. So much machinery has been installed in the plants and factories over the country, so many inventions, complicated and perplexing, have been brought out by the mind of man to do his work for him, that today scarcely is there any occupation outside of the professions which does not bring the worker face to face with accidents which often happen and often result in death. Others happen which would result in death were it not for prompt aid brought to the unfortunate through the thoughtfulness of those who have prepared themselves for just such things, realizing that the dangers to human life increase as the days go by.

Foremost in this list of ever ready aids to the victims of accidents is the ambulance service. Many cities have numbers of them, private or owned by the city. Newark has them, and the ambulances in use in this city have undoubtedly saved the lives of more than one unfortunate victim of the unavoidable.

Let the goos of an ambulance sound on the still air of a clear night and immediately the telephones all along the distance traveled by the plunging horses and rumbling carriage begin to tinkle at the headquarters of the various undertaking establishments and in the factory offices along the route of the messenger of assistance to the injured. People are anxious to know if any of their friends or relatives has been the victim and whether there is a chance for life.

In Newark at present there are but three wagons of the kind all equipped with the most modern means of delivering an injured person safely into the hands of competent attendants, physicians and surgeons. Bowers & Criss Bros., McGonagle, and Long & McCament each have in their stables the ambulance, horses and harness ready to answer the "hurry" call that of but a moment. Men are on duty at all hours of the day and night, ready to answer the "hurry" call that means a race with death in many instances. The telephone sounds and in an instant the man at the phone knows where to go, and in just ten seconds more he is on the seat of the ambulance urging forward the al-

ready eager horses whose instinct seems to warn them of the serious nature of their call to duty. He is off, down through the streets. If they are crowded with traffic he must guide the horses correctly and be sure of the location of streets and crossings. He arrives at the scene of the accident. Perhaps he must drive under the shaking walls of a burning building, or, between numbers of moving engines and trains on the railroad yards, still he hurries on, undaunted, until he has reached the side of the injured. The victim of the accident is quickly, but so carefully, lifted to a stretcher which is carried in the wagon, then placed inside of the bulky vehicle where he rides under the watchful eye of the ambulance surgeon or attendant who sits on a seat at his side. The big wagon rolls along on its swift flight to the hospital where the injured is to receive the quickest and most necessary aid. When he has arrived at the hospital and sees the victim placed on the stout, rubber wheeled carriage which takes him to the operating rooms, the driver knows that his part in the race for life is done and his next duty is to return the "rig" to the stables, where it is carefully gone over, cleaned, disinfected, and placed ready for another run. The horses are well groomed and turned to their respective stalls which they know as well as the average person knows the face of a friend. And it is seldom indeed that they are returned to their stalls after a hard run without receiving a friendly pat on the neck or a word of encouragement from their driver.

The victim of the accident, in the meantime, is being cared for with the utmost skill of a number of trained attendants under the direction of a competent surgeon. If an operation is necessary the antiseptic aprons and headbands are ready for the instant use of the surgeon's assistants stand at their side and obey every order instantly until finally the task is completed and the injured person is comfortably rested in a quiet ward of the hospital.

After the first shock of the accident wears away and the victim is able to recall the occurrence, he then wonders how he was cared for so quickly and successfully, and he realizes, then all the more, the greatness of the service rendered by the big, heavy wagon with the clattering gong and the patient horses, which for a moment causes every man, woman and child to pause in fear and excitement as it whizzes past on its errand of mercy.

In larger cities private ambulances have set a price for making runs, but in Newark, where ambulance service has been offered for the past five years, there has been no charge for the work, excepting the meager advertising afforded by the use of the "emergency wagon."

### EARL BURGESS CO.

The engagement of the Earl Burgess company all this week at the Auditorium is one that should create a great deal of interest as this company is one of the largest and best equipped which has ever traveled at popular prices. The plays to be presented are all sensational scenic and sensation productions. "Queen of the White Slaves," "Darkest Russia," "A Daughter of the South," "Lured From Home," "Secrets of the Police," "Fast Life in New York," "Confessions of a Wife," all intensely dramatic and satisfying to the most exacting. Specialties between acts of a high grade are a feature at every performance. Special attention has been given to the scenic and electrical equipment and the mounting of each production is superb.

Repertoire shows come and go but better than the Earl Burgess company at the Auditorium this week. In addition to royalty plays presented with all special scenery, they are giving away each night a building lot free, and on Saturday matinee and night will give away a French poodle in addition to the lot.

### CRESTON CLARKE.

It was freely said of Creston Clarke in "Monsieur Beaucaire" last season that he never failed to captivate his audiences, dazzling them by his brilliant work. The critics this season have not even tried to give the theater-going public an idea of the artistic merits of Mr. Clarke's impersonation of the modern role of John Morton, the clergyman, in "The Ragged Messenger." They one and all have merely said: "Be sure you go to see this splendid actor in his greatest success." Creston Clarke will present "The Ragged Messenger" at the Auditorium Thursday evening, Nov. 22.

### ORPHIUM THEATER.

One of the cleverest acts that has appeared at the Orphium this season is Wesson, Walters and Wesson, the trio head line act on the bill at the popular vaudeville house this week, and the audience is kept in an uproar of laughter from start to finish. With five other big acts this is a vaudeville bill every person in Newark should not fail to see.

## RAILWAY AFFAIRS

### LOCAL, GENERAL

JAMES J. HILL AND OTHERS NOW IN MINNEAPOLIS TO GIVE TESTIMONY.

B. & O. Plumber's Finger Cut Off—Directors Elected—Trainmen Balk—Personal Items.

Minneapolis, Minn., Nov. 21.—Jas. J. Hill and 20 business men are here today to testify before the Interstate Commerce Commission in the hearing of the charge of Senator La Follette of Wisconsin, that railroad men own stock in certain grain and elevator companies and grant special concession to these companies.

H. B. Dick, division engineer of the B. & O., was in Mansfield on business.

### Trainmen Balk.

Members of the Brotherhood of Railway Trainmen and the Brotherhood of Locomotive Firemen working along the Pennsylvania lines in this section will not accept the 10 per cent increase in wages offered by the Pennsylvania company, as a settlement of differences relative to rates of pay. The trainmen are demanding a settlement on the same basis as that reached in Chicago, which is 33 and 37 cents per hour for conductors, 10 hours or less to constitute a day, and overtime to be at the same rate, and brakemen to receive 33 and 35 cents per hour.

### Finger Cut Off.

A B. & O. plumber, E. M. Webb, whose home is in Zanesville, had the middle finger of his right hand completely severed Tuesday while engaged in setting a steam radiator at the B. & O. offices here. He was taken to the office of Drs. Barnes and Shirer where the injury was attended.

### Directors Elected Here.

Three important meetings of the stockholders and directors of the Sandusky, Mansfield and Newark Railroad company; the Ohio Midland Railroad company and the Ohio and Little Kanawa Railroad company were held in the office of the Baltimore & Ohio Railroad company in this city Wednesday.

Directors for the Sandusky, Mans-

fielded as follows: Edward H. T. F. Irwin, James F. Irwin, Edward Kibler and Fred S. Wright of Newark; F. A. Durbin, T. J. Frazer of Zanesville; Oscar G. Murray, James Reynolds and C. W. Woolford of Baltimore.

The Ohio Midland Railroad company elected the following directors: J. F. Irwin and Edward Kibler, Newark; F. A. Durbin, T. J. Frazer, Zanesville; M. H. Davis, Shelby; Oscar G. Murray and C. W. Woolford, Baltimore.

Directors for the Ohio and Little Kanawa Railroad company were chosen as follows: Edward Kibler and J. F. Irwin, Newark; F. A. Durbin, T. J. Frazer, L. G. Haas and J. Hope Sutor, Zanesville; Oscar J. Murray and C. W. Woolford, Baltimore.

Oscar G. Murray, president of the Baltimore & Ohio Railroad company, was, at a meeting of the board of directors of each of these companies, elected president; F. A. Durbin, vice president, and C. W. Woolford secretary.

### Elect Directors.

Cincinnati, O., Nov. 21.—At the annual meeting of the Cincinnati Southern Railroad company held here the following directors were elected: Lawrence Maxwell, Jr., Samuel Spencer, Briggs S. Cunningham, Charles A. Hinsch, W. J. Murphy and E. W. Klitridge.

### Says Bridge is Dangerous.

New York, Nov. 21.—Traffic Manager Calderwood of the Brooklyn Rapid Transit company, stated today that traffic on the Brooklyn bridge is in danger, owing to the bridge department sending too many trains across it. He says he does not want to alarm the public, but if a calamity should happen, he doesn't want his company held responsible.

### Railroads Out of Business.

Memphis, Tenn., Nov. 21.—With heavy rains still falling today and snow predicted the storm situation here is rapidly becoming more acute. All railroads with the exception of the Iron Mountain, Cotton Belt and Louisville & Nashville are tied up, and the outlook is that traffic on the L. & N. will be suspended. The Illinois Central and the Southern are entirely out of business. Since Friday night 14 inches of rain has fallen. An estimate of the damage to roads, bridges and levees here is \$250,000.

### Lost—A Train.

Colorado Springs, Colo., Nov. 21.—Somewhere on the prairies in eastern Colorado a Rock Island train is lost and the passengers away from human sight or sound, may be suffering for want of food. Since midnight Monday the wires between here and Goodland, Kansas, have been kept hot in an effort to locate the train, but the Rock Island officials have no knowledge of its whereabouts. The train is No. 41, limited, and was due in Colorado Springs from Chicago at 9:40 Monday night. The number of passengers on board approximate 200.

## WEDDINGS.

### MCCOY-STOUT.

One of the prettiest weddings that has taken place in the office of the Probate court for some time was the marriage on Wednesday afternoon of Mr. George A. McCoy and Miss Jennie Stout. The ceremony was performed by Justice Lee S. Lake in the presence of quite a number of witnesses, among whom were nearly all the court house officials. Immediately after the conclusion of the ceremony the newly wedded couple left for the west on a short wedding trip. The bride is a daughter of Mr. Mahlon Stout, a well known glassworker of Utica, and is a most charming young woman, while the groom is a son of Mr. George McCoy, a prominent contractor of Mt. Vernon. Mr. and Mrs. McCoy will live in Mt. Vernon.

### SWARTZ-KUNTZ.

On Sunday evening Mr. Angus Swartz and Miss Zernia Kuntz were united in marriage at Thornville. Mr. and Mrs. Swartz have many friends, who, while they are surprised to hear of their marriage, will extend the warmest congratulations. The young couple went to housekeeping at once on the Swartz farm.

## HANGS HIMSELF AT HIS RESIDENCE

FORMER CASHIER OF SPRINGFIELD BANK HAS BEEN ILL TWO YEARS.

A. R. Coughlin Well Known—Suit in Which He Was Interested About to be Tried.

Springfield, O., Nov. 21.—A. R. Coughlin, until two years ago cashier of the First National bank of this city, committed suicide by hanging himself to a beam in the basement of his home. Mr. Coughlin became ill about two years ago, and to effect a complete recovery he went to a sanitarium in Pennsylvania, where he remained until six months ago. A suit was filed against him recently involving funds belonging to an estate of which he was executor more than 20 years ago. The hearing was set for Thursday. The pending suit involved Mr. Coughlin neither financially nor personally. It is thought, however, that worrying over the legal questions involved again upset his mind temporarily.

Mr. Coughlin was well known in banking circles all over the state and was prominent in the councils of the Presbyterian church.

Creston Clarke, "The Ragged Messenger," broke season's record at the Park Theatre, Philadelphia, last week.

## KEEP TEMPER EVEN SAYS HARVEY DRUM

Harvey I. Drum of Thornville (Beech Woods) contributed the following to the current number of Health:

No man is at his best when he has lost control of himself, and the time of all times when a man needs be at his best is when he is being attacked; yet how many men deceive themselves, thinking they actually gain in force and effectiveness by letting go of themselves, "getting mad" and showing it under provocation. To do so is to weaken one's self and to uncover that weakness to others. One of Thomas Jefferson's ten rules was, "when angry, count ten before you speak; if very angry, a hundred." The man who subdues his temper will endure disease, for it may be considered the thermometer of man that regulates his system.

The man who can continue to smile inside and out, no matter what the provocation to do otherwise, has a weapon that makes him hopelessly invincible to his enemies. The man who "gets angry" hands over his best weapon to the opposition.

If you are kind, gentle and affable in deportment to all you are blessed. Violence of temper has killed many a man and woman. Keep the temper even.

### APPLETON.

The meetings will continue this week, beginning promptly at 7 p.m.

## DAY'S BUSINESS IN COURT HOUSE

VERDICT FOR DEFENSE IN CASE OF HAMILTON AGAINST STONE ET AL.

Receiver of Steel Plant Given Authority to Sell Scrap Iron—Will Contested.

The following is the day's business transacted in court of Common Pleas: Wilson Close & Co. vs. Geo. Kates, leave given to plead. Fulton & Fulton; Kibler & Montgomery. Plaintiff brings the action to recover on a contract for the purchase price of merchandise.

In the case of Ideo Hamilton vs. J. C. Stone, et al., the jurors returned a verdict for defendant. The action was in replevin to determine the right to the possession of a quantity of hickory lumber. James Flory & Flory; Kibler & Montgomery, Redfern.

Samuel Morris vs. Newark Iron and Steel Co.; authority given receiver to sell scrap iron now on premises at \$8 a ton, the money to be paid into the hands of the clerk of court. Swartz, Jones & Jones; Flory & Flory, Steel, Kibler & Montgomery.

The case of Julius Love, et al., vs. Robert Richter, et al., is on trial to the court and jury, a number of witnesses having been subpoenaed. The suit is brought to contest the will of Ephant Richter, on the ground that at the time of the execution of the same Richter was not of sufficient mental capacity to make a will. Smythe & Smythe; Flory & Flory, Kibler & Montgomery.

In the case of Julius Love et al. vs. Robert C. Richter et al., after a jury had been partially secured, plaintiff asked for a continuance because one of the infant heirs had not been made a party defendant. The defendants elected to proceed with the trial. On the convening of court at 1 p.m. on Wednesday the plaintiffs dismissed their action without prejudice to a new action, and the witnesses in the case were discharged from further attendance on the court.

Temporary Alimony Allowed.

A hearing was had in the Probate court on Wednesday on application of Mrs. Melie Nicholia for temporary alimony in the divorce case of Melie Nicholia against Wilbur Nicholia. Attorney L. G. Shbaugh of Lancaster, appeared for the plaintiff and B. G. Smythe represented the defendant. The court ordered the defendant to pay the plaintiff \$35 for temporary alimony before the hearing of the case on its merits, which will be on December 4.

Answer to Cross Petition.

The answer and cross petition of the Smith Sons Lumber company, defendant in the case of the Citizens Building and Loan Association of Newark, against Charles L. Barcus, has been filed in the Common Pleas court. Kibler & Montgomery, attorneys for the Smith Sons Lumber company.

Demurrer to Answer.

In the case of Mary J. Lingafelter vs. O. P. Conner, the plaintiff has filed a demurrer to the second defense of the defendant, for the reason that the matters and things therein alleged are not sufficient to constitute a defense to the petition. Jones & Jones, attorneys for Mary J. Lingafelter.

Demurrer Filed.

In the case of Mary J. Lingafelter vs. Frank Grief, the plaintiff has filed a demurrer to the second defense in the answer of defendant. She demurs for the reason that the matters and things alleged are not sufficient to constitute a defense to the petition. Jones & Jones, attorneys for Mary J. Lingafelter.

Court House Notes.

## MR. BUSCH'S VISIT

Had Nothing to Do With Telephone Plant—St. Louis Man Here to Attend Glass Meeting.

W. B. Jackson in Wednesday's Journal says: "Quite a good deal of comment was occasioned in telephone circles yesterday by the passage through Columbus of a private car from St. Louis containing a party headed by Adolphus Busch, the millionaire brewer and Breckenridge Jones of the Mississippi Valley Trust company. The party was composed of men interested in the United States Telephone company and the Bradley Telephone syndicate, which controls the Cuyahoga Telephone company of Toledo, the United States Long Distance company and a number of other Ohio companies. They went to Newark and will inspect the plant in that city. The syndicate does not own the Newark plant, but there is a rumor that it may purchase it. The visitors will be in Columbus for a short time this afternoon and will then go to Toledo. If there is time the local telephone plant may be looked over. It is said that some important deals are pending in Ohio telephone properties, and further consolidations of companies may be a result of the inspection."

The visit of Mr. Busch and party to Newark had nothing to do with the telephone business according to officers of the Newark Telephone company and the sale of the local property is not being thought of. Mr. Busch came here to attend a meeting of the directors of the American Bottle company at General Manager E. H. Everett's office.

## K. OF P. JUBILEE

## OLD AGE PENSIONS

Will be Taken Up in England Soon as Time and Money Permit Says the Premier.

London, Nov. 21.—Replying to the deputation of members of the house of commons from the Liberal and Labor parties, Premier Campbell-Bannerman said the matter of old age pensions would be taken up as soon as time and money permitted. He expressed himself as opposed to the "contributory scheme" because it involved inquisitorial machinery. Old age pensions, the premier continued, far from sapping independence and undermining thrift, would do just the opposite. Any scheme ought to be universal and must be put into effect by the state, which alone has the means of carrying it out.

Why Vinol Is Better Than Any Other Remedy to Restore Health and Strength

Because Vinol is a real Cod Liver Preparation and does not contain a single disagreeable or harmful ingredient and is not a secret formula.

Because Vinol contains all the medicinal elements—the soothing, healing, strengthening and flesh creating properties of Cod Liver Oil—but without oil or grease.

Because everything in Vinol—except the tonic iron and a fine old wine—is actually extracted from fresh cods' livers and their oil.

Because Vinol is deliciously palatable and agreeable under all conditions. Everybody likes it.

Because Vinol tones up the system, strengthens every organ, nerve, muscle and fibre of the whole body and thus overcomes weakness by thoroughly eradicating the cause of disease.

That's Why Vinol is altogether different and better than any other remedy for Coughs, Colds, Bronchitis, and all Throat, Lung and Wasting Diseases.

That's Why Vinol Restores Health and Strength to Delicate Children, Feeble Old People, Weak and Sickly Persons, Nursing Mothers, and Convalescents.

# COSHOCTON SURE OF VICTORY IN POLO GAME HERE TONIGHT

Calm His Reputation of Playing Dirty Game but Newark Rests Easy Any Way--Indications Are for Good Contest.

Tonight will see the first regular polo game of the amateur polo league of central Ohio. The Coshocton team of players will come to the Palace Hotel on Cedar street, East Newark, for the opening game. At Coshocton they have played it out but there will be nothing to it but their team. They think because they played five games away from home last winter and won them all that they are some pumpkins when it comes to polo playing.

Over at the East Newark rink, the players on the Newark team have a bunch that they also know the game of polo. The Coshocton bunch has the advantage of having been together a year but Manager Daken says he has never seen a bunch of youngsters as fast as the locals, considering the fact that they have been together but one short month.

From all indications there will be a good crowd present tonight and Newark people should see to it that the local boys do not look for encouragement.

The opponents in tonight's game have a reputation for playing dirty polo but this feature has been unknown in the game at the Newark rink and this fact may work as a boomerang for the visitors. A return game is booked with Coshocton and games are already scheduled with Utica and Uhrichsville.

The two teams will line up as follows:

Newark—Heath, first rush; Barker, second rush; Pope (C) center; Smythe, half back; Reed, goal.

Coshocton—Thompson, first rush; Boyd, second rush; Pope (C) center; Smythe, half back; Reed, goal.

Manager Daken has received word from Coshocton that the team from that city will bring about 50 rooters with them. The local team put in an hour and a half at hard practice last night and are in good shape for the game.

Arrangements have been made to have extra car service on the Cedar street line tonight to accommodate the crowds at the rink.

**First Rule of Health**

Ask your doctor, "What is the first great rule of health?" Nine doctors out of ten will quickly reply, "Keep the bowels regular." # Feet swelled from frightful Eczema

Could not wear shoes Cured by D. D. D. Prescription

COLUMBUS, OHIO, Nov. 5th, 1904.

Gentlemen: For several years I was a sufferer from Eczema, the affliction affecting my hands, arms and feet. At times my feet became so swollen that I could not wear my shoes, while the constant itching of the eruption on my hands and arms became almost unbearable. Upon the recommendation of another such sufferer as myself, I began the use of D. D. D., and it gave me immediate relief. I have now fully recovered from my ailment, and I give D. D. D. the credit for effecting what is to me and my family, a marvelous cure.

GUY J. GABLE.

Why any mortal should go on suffering from Eczema with such evidence as we can place before them of the wonderful cures effected by D. D. D. is beyond our comprehension. Isn't it certainly worth your while to try. Think of the joy of being well and clean again. D. D. D. can surely cleanse and cure you. Don't hesitate, but go today to the nearest drug-gist and get a \$1.00 bottle; your cure will then begin. You take no chances, for we refund every cent.

In the hardest fought game of the present bowling season, the Railroad club defeated the Strollers Tuesday night on the Music Hall alleys by 57 pins. The game was hotly contested from the start. The Railroaders took the first game by 38 pins, but the Strollers got the second game by 16 pins, but the last game went to the Railroaders again by 35 pins. Peterman rolled the high score with 217 in the last game and captured high average. Little of the Strollers was next with the high average, rolling 505 in the three games. The Strollers and the Railroad club are tied for first place. The Consumers and the Echoes will roll tonight.

# FORCED BATHS

Are Ordered for the Woman Miser Who Had Thousands in Her Fiftly Home.

Shelbyville, Ky., Nov. 21.—County Judge H. Davis, after a trial on last Saturday, appointed a trustee to take charge of Mrs. America Scher and her effects. For ten years or more the woman has been known as an eccentric miser, with a hatred for cleanliness. The trustee has subjected his charge to four forced baths given her in as many days by two negro women under the advice of a physician, who says that she has but a few hours more to live.

In her house a box containing \$2,520 in cash and an L. and N. bond for \$1,000 was found. It is believed that under the carpet and in other places there are thousands of dollars concealed, the accumulation of years. It is said she has saved \$20,000. Mrs. Scher is related to prominent families in this and Henry county. Some of her relatives hold judicial and other official positions. She was twice married. Her second husband died 13 years ago. She leaves no children.

**GOV. IDE'S VIEWS.**

Washington, Nov. 21.—"It would in my opinion, be the greatest misfortune to the Philippines if given back their freedom now," said Henry C. Ide, former go orner general of the Philippines, who is here to submit the annual report of the Philippines commission to the President.

"Conditions in the islands are excellent," continued Gov. Ide. "The natives of forty provinces are rapidly learning American ways. They take an interest in politics naturally, and many will hold offices."

The Review of Reviews says Butte, Mont., is a flowerless, grassless, godless town.

# GAME WARDEN TALKS OF LAW ENFORCEMENT

"There has been during this year a greater number of prosecutions and convictions for violation of the game laws than ever before in the history of Ohio," said J. C. Porterfield, state game warden, yesterday. "The number of prosecutions thus far this year is double that of other years. The number of prosecutions since the quill and rabbit season opened Thursday is greater than in former years." Several hunters in Franklin and Delaware counties have been arrested, some having failed to obtain the written permit required.

Mr. Porterfield says there are two reasons for this increase. In the first place the farmers are recognizing their rights and demand the enforcement of the laws. Then the game wardens throughout the state have been more efficient, and better results have been accomplished than in other years.

Mr. Porterfield firmly believes that unless the game is protected it will be entirely exterminated in a few years, as the country does not afford the good protection it once afforded. There have not been many prosecutions for violations of the fish laws.

# Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts"? These significant remarks prove that the system requires attention. Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some derangement of the organs. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the best judges agree that it is the most universally successful remedy for woman's ills known to medicine.

Read the convincing testimonials of Mrs. Holmes and Mrs. Cotterly.

Mrs. J. C. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham:—

"I have suffered everything with backache and female trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was commenced to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved I should have taken it months sooner—for a few weeks' treatment made me well and strong. My backache and headache are all gone and I suffer no pain at my monthly periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotterly, 109 East 12th Street, New York City, writes:

Dear Mrs. Pinkham:—

"I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pinkham's Advice—A Woman Best Understands a Woman's Ills."

### DRESS SETS, THEY CALL THEM.

That accessories make the costume there is little doubt. No matter what the gown may be it needs the proper accessories to set it off and add as it were the finishing touches, none of which accomplish this end so effectively as those smart "dress sets" comprised of scarf and muff which all the smart shops are now displaying. These come in coq, ostrich and marabout, the latter being softer and fluffier. These with the ostrich are priced somewhat higher than the coq, but the effect well repays the expenditure, and they are not in the least perishable as one might imagine. That of the picture shows a broad scarf of white marabout some two and a half yards in length marked here and there with little tufts of brown feathers, and the square pillow

# BAN ON TRUSTS

Decision of Supreme Court Tells of Virginia Defines Powers of the People.

Charleston, W. Va., Nov. 21.—The state supreme court decided a case which defines to a great degree the powers of the people of a state to control trusts, monopolies and combinations. The case was brought to enforce a contract between certain coke companies in the Flat Top region. West Virginia has no anti-trust law and the decision is based on the common law, which holds centrally to the Sherman anti-trust law, that the restraint must be unreasonable, and so declared this contract to be void. The decision puts under a ban any trust or combination of two or more persons to control any legitimate article of trade, and includes organizations and unions.

# SECRETARY ROOT SPEAKS IN ST. LOUIS

St. Louis, Nov. 21.—Secretary of State Root arrived here today from Kansas City. He will address the Commercial club at a dinner tonight. Mr. Root has been invited also to address the members of the Merchants' Exchange on the floor this afternoon. He leaves for Cincinnati tonight.

# ROOT AGAIN

Dwells Upon Our Trade Relations With South America.

Kansas City, Nov. 21.—Elihu Root, secretary of state, before the Trans-Mississippi Commercial congress, delivered his second speech in this city within two days. His speech was the feature of the first day's session of the congress. As on Monday night, Mr. Root Tuesday night again dwelt upon our relations with the South American republics, telling of his recent trip through these countries. He said the time had come for the expansion of trade between the countries of the north and south that would result in the peaceful prosperity of a mighty commerce. He declared that the means of communication between these countries must be improved and increased, and said the "woeful deficiency in the means to carry on and enlarge our South American trade is but a part of the general decline and feebleness of the American merchant marine." He spoke of the possibilities of investment of American capital in South American enterprises, and dealt also with the political aspect of the situation. Secretary Root referred at length to the disadvantages imposed on American shipping by the subsidized steamship lines of other nations, adding that it is for business men all over the country to show to the representatives in congress that the producing and commercial interests of the country really desire a practical measure to enlarge the markets and increase the foreign trade of the United States.

# DIVORCE SUIT

Causes Big Sensation in Louisville Society Circles.

Louisville, Ky., Nov. 21.—Mrs. Amantiss Jungbluth filed suit here for divorce from her husband, Carl Jungbluth, secretary of the Continental Tobacco company. She asks for \$200,000 alimony and also files suit against Jungbluth, the Continental Tobacco company, Powhatan Woodlidge and the Deposit banks of Beards, Ky., to restrain them from disposing of or purchasing Jungbluth's property. Mrs. Jungbluth was granted a temporary injunction and writs of attachment by Judge Kirby. Mrs. Jungbluth in her petition complains that her husband has hired secret agents to spy upon her and has turned the servants against her and has induced them to tell false stories. The petition says further that Jungbluth has lived most of his time for the past several years in New York, and not only did not invite her to come to him but insisted that she remain on the farm, where her only protection was the servant. The filing of the suit has caused a sensation in Louisville society.

# FOUND GUILTY

Was American Sugar Refining Company of Accepting Rebates.

New York, Nov. 21.—The American Sugar Refining company was found guilty by a jury in the United States circuit court of accepting rebates amounting to \$26,000 from the New York Central railroad. The New York Central was recently found guilty of giving rebates to the American Sugar Refining company and fined \$108,000. Joseph H. Choate in his argument for the defense declared that there was no precedent in American law for such an enormous fine as the statute against rebating provided. It was necessary, he said, to go back several centuries in English law to find an instance in which a penalty amounting to more than \$100,000 had been imposed.

# Action of Wine Growers.

Sandusky, O., Nov. 21.—At an adjourned session of the Wine Growers' Association of America action was taken on several topics of interest. The growers passed resolutions endorsing the new pure food law and agreed upon a plan for uniform labels. Foreign labels and labels similar to those from foreign countries are not to be used.

# NO GRAFT THERE

Representative of Red Cross Tells of Relief Work in California After Earthquake.

New York, Nov. 21.—Dr. Edward T. Devine, who as special representative of the Red Cross had supervision of the relief work of the society at San Francisco following earthquake disaster, declared before the New York state branch of the Red Cross that while mistakes might have been made in the distribution of the relief fund, there was no "graft" there. Dr. Devine took occasion to refer to the indictments recently returned by a grand jury against Mayor Schmitt of San Francisco growing out of an investigation of municipal affairs, saying: "There is one person at least, one who has had every opportunity to know the truth, who does not believe that the mayor of San Francisco has stolen a penny of the relief fund."

# J. OGDEN ARMOUR

Most Important Witness Before the Investigating Committee of Commerce Commission.

Milwaukee, Wis., Nov. 21.—J. Ogden Armour, president of P. T. Armour Packing company a large holder of stock in the Armour Grain company, Neola Elevator company and Atlas Elevator company, and also owner of large blocks of stock in the Milwaukee road, Pennsylvania lines, Union Pacific and other railroads, was the most important witness before the investigating committee of the interstate commerce commission. Mr. Armour in reply to questions said he was unaware of any special favors shown him by railroads in which he had stock, and repeated the statement when asked as to specific instances. He denied any knowledge of rebating or other forms of favoritism.

# MAILS TAMPERED WITH

Complaints by Richmond Business Men Lead to Arrest of Mail Carrier Engelbert.

Richmond, Ind., Nov. 21.—Complaints by Richmond business men of letters being tampered with and money extracted culminated in the arrest of T. D. Engelbert, a mail carrier, by a United States postoffice inspector. Engelbert will be taken before the United States commissioner at Indianapolis. Losses aggregating \$200 have been charged against the Richmond office. Engelbert, it is said, was detected by the use of a decoy letter.

# Catarrh of the Stomach

A Pleasant Simple, But Safe and Effective Cure For It.

# COSTS NOTHING TO TRY.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, head aches, fickle appetite, nervousness and a general played out, languid feeling. There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition. The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily and thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison, the safest and best treatment is to use after each meal a tablet, composed of Digestase, Aspicin, Pepsin, a little Nux Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the lining backward into the throat reaches poisonous discharge, therefore pressing the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for 12 years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found fresh appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion. Catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

# S.S.S. HAS BEEN CURING CATARRH FOR FORTY YEARS

S. S. S. is not a new treatment for Catarrh; it has been curing the disease for more than forty years, and so universally successful has it been that it has won an established place in the confidence of the people as a remedy for this disgusting, troublesome and dangerous disorder.

Catarrh is not merely a stubborn or protracted cold, as some people seem to think; it is a deep-seated and serious blood disorder, more generally affecting the body than any other disease. Hardly any part of the system is exempt from the trouble; it attacks the head, throat, stomach, bowels, kidneys, bladder, lungs and other members, and its effects often completely break down and undermine the entire constitution.

This catarrhal condition is usually first noticed after the contracting of a cold. The inner skin and tissues of the body become irritated and inflamed and secrete an unhealthy matter, which is absorbed into the blood; this foreign matter corrupts and diseases the circulation, and as the blood goes to every nook and corner of the body the poisonous matter with which it is loaded is deposited to set up inflammation and disease of the different members. Catarrh has more disgusting and annoying symptoms than any other trouble. There is a constant buzzing noise in the ears, a watery discharge from the nostrils, headaches and pains in the eyes, stringy, filthy matter drops back into the throat, requiring continual hawking and spitting, the breath has an offensive odor, slight fever often accompanies the disorder, gradually the entire blood supply becomes tainted and diseased and the system completely disordered and upset. After awhile the kidneys and bladder become affected, chronic Dyspepsia or Catarrh of the stomach develops, and the disease settles in some vital place, generally the lungs, because of the constant passage of poisoned blood through them, and Catarrh terminates in consumption, a hopeless and fatal disease.

Catarrh is usually worse in Winter, because of the cold and dampness and suddenly changing temperature, but it is in no sense a disease dependent on climatic conditions for its development. Neither is it a trouble to be cured with sprays, washes, inhalations and such treatment; these merely relieve the reflex symptoms for awhile, but they are fanned into existence again at the next exposure to unfavorable weather.

As Catarrh is a deep-seated blood disease the very best constitutional treatment is required to effect a cure. S. S. S. is the greatest of all blood purifiers, and is therefore the remedy best fitted for the work of removing the cause and permanently curing the trouble. Forty years of successful service have proven the worth of this great medicine in the treatment of Catarrh. S. S. S. is peculiarly suited as a remedy for this disease. It is made entirely of healing, cleansing extracts and juices of roots, herbs and barks, without the least addition of mineral medicines. S. S. S. goes down into the blood and removes the catarrhal matter and poison, and its gentle acting vegetable properties strengthen and repair the diseased membranes and tissues so that when the cause has been removed the entire system is left in a state of perfect health. S. S. S. also tones up the stomach and digestion, and acts as a fine tonic to the entire system. S. S. S. has been curing Catarrh for more than forty years, and what it has done in the past is a guarantee of what it will do in the future. It is not an experiment, but a real blood purifier tested by time, for blood diseases like Catarrh. Write for our book which contains information about Catarrh, and ask our physicians for any medical advice you desire. No charge for either.

## UNDERWRITING FIRMS RAIDED

Alleged by Federal Officials to Be  
Fraudulent Concerns.

### HAD EXTENSIVE BUSINESS

Plan by Which the Reputed Swindle  
Was Carried On Said to Have Net-  
ted the Promoters Nearly a Million  
Dollars — Accused Men When Ar-  
raigned Give Bond.

Chicago, Nov. 21. — United States  
officials raided several underwriting  
companies here, alleged to be fraud-  
ulent concerns. The companies are  
accused of promoting fraudulent en-  
terprises. According to the federal  
authorities the men accused of oper-  
ating the scheme had many victims  
and realized nearly a million.

The names of the persons arrested  
and the companies with which the  
federal officers say they are connect-  
ed follow: W. J. Root, president; W.  
H. Welch, vice president, and W. D.  
Hulburt, secretary of the Central  
States Underwriting and Guarantee  
company; Charles Endicott Brown,  
president of the Prudential Securities  
corporation, brokers; Frank S. Win-  
slow, president American Corporation  
and Security company; Ezra C. Bar-  
num, president National Stock and  
Guaranty company and the Bankers'  
Credit and Mercantile company; Da-  
vid C. Owings, National Stock and  
Guaranty company.

The postal authorities say the un-  
derwriting companies were in league  
with certain of the brokers, with  
whom they divided the fee taken for  
the supposed underwriting, which was  
never done.

The authorities further assert that  
in each case the underwriting com-  
pany was given a fee, and that in  
many cases the officers representing  
the company seeking the underwriting  
had scarcely left the underwriting  
office by the front door before the  
broker who introduced the capitalist  
would enter through another entrance  
and get half of the underwriting fee,  
and the underwriting venture would  
then be closed by the underwriters  
and the broker, no attempt being  
made to sell the stock. The govern-  
ment officials say that the men ar-  
rested never entered into a proposi-  
tion in which less than \$100,000 was  
involved, and that they in many cases  
obtained as much as \$5,000,000 worth  
of stock to underwrite.

Hulburt, Root and Welch were  
taken to the United States district  
court and gave bonds of \$5,000 each  
for their appearance for trial.

## COMRADES

Met Death Together, Leaving Wife  
and Sweetheart Over the Seas  
to Mourn.

Marion, O., Nov. 21.—Coming here  
together a month ago from Florence,  
Italy, to make their fortune, Pietro  
Rosicato, aged 32, and Antonio  
Iamulli, aged 22, met death yester-  
day. They were together when run  
down by an Erie switch engine and  
Rosicato was instantly killed, his  
body being terribly mangled, while  
Iamulli was so badly injured that he  
died several hours later.

Rosicato left a wife and Iamulli a  
sweetheart in Italy, both of whom  
were to be sent for when the young  
men prospered, and Iamulli's sweet-  
heart was to become his bride.

## WALKS TOO SLIPPERY AND CAB TOO SMALL

Aurora, Ill., Nov. 21.—Peter Klees,  
Aurora's four-hundred-pound Police  
Magistrate, was icebound yesterday,  
due to slippery sidewalks, a condition  
that nearly stopped the wheels of jus-  
tice. Chief of Police Michael dis-  
patched a cab to convey the missing  
official to police court, but, unfortu-  
nately, the doorway of the vehicle  
proved too narrow to allow even the  
narrower side of Klees' anatomy to  
enter. Therefore, Justice L. A. Look-  
wood was detailed to administer the  
law.

Magistrate Klees was elected last  
spring. For a number of years he  
served on the Aurora police force.

Hammering Count Witte.  
St. Petersburg, Nov. 21.—Since his  
return to Russia, Count Witte has  
been showered with abuse and at-  
tacked on all sides. A campaign to  
discredit him and prevent his ever  
returning to power is openly in pro-  
gress. The Socialist press has given  
him the lie direct on the subject of  
his declaration that he had no com-  
munication with the workmen's  
council during his premiership, and  
high officials of the government are  
furnishing material for attacks upon  
him.

Recent investigations show that  
snails have a sense of smell which,  
however, is not localized but extends  
over the greater part of the body.

LORD CURZON IN AMERICA ON A FAMILY ERRAND.

New York, Nov. 20.—Lord Curzon,  
former viceroy of India, arrived on  
Thursday on the Baltic. It is under-  
stood that he comes to the United  
States on private business connected  
with the settlement of the estate of  
the late Lady Curzon (Miss Mary  
Leiter).

Accompanying Lord Curzon were  
his mother-in-law, Mrs. Levi Z. Lei-  
ter, and the Earl and Countess of  
Suffolk. Mrs. Leiter went immedi-  
ately to Washington while her two  
sons-in-law and her daughter went to  
the Waldorf-Astoria, to remain a few  
days before joining her there. The  
three children of Lord Curzon re-  
mained at the latter's home in Eng-  
land.

According to the Earl of Suffolk  
there is no intention on the part of  
the Leiter family to bring Lady Cur-  
zon's body here for re-interment in  
Washington. He also expressed the  
opinion that Lord Curzon had no  
thought of being appointed to Wash-  
ington or to succeed Earl Grey as  
governor general of Canada. "He is  
out of politics," he said.

### MAN FATALLY SHOT HUNTING AT LANCASTER

Lancaster, Nov. 21.—Wm. Malloy  
was fatally shot while hunting south  
of this city yesterday afternoon. The  
party was crossing a small stream on  
a fallen log and one of Malloy's com-  
panions handed him his gun, which  
was cocked. As Malloy drew the  
weapon toward him it was discharged,  
the entire load taking effect in his  
right side. Malloy is a married man  
and has several small children.

### SONATE RECITAL GIVEN AT GRANVILLE TONIGHT

Granville, Nov. 21.—A rare musical  
treat will be given Granville lovers of  
music this evening, when Prof. Arthur  
L. Jackson, violinist, and Miss Dorothy  
Kibler, pianist, will give a sonate re-  
cital at Recital hall. The program to  
be rendered on this occasion is as  
follows:

Beethoven.....Sonate in F, Op. 21  
Allegro, Andante molto espressivo  
Scherzo—Allegro molto  
Rondo—Allegro ma non troppo  
Schumann.....Sonate in A, Op. 107

### DEAD MAN A MURDERER

Zanesville, O., Nov. 21.—Pennsylvania  
Railroad Detective Appleman  
viewed the remains of John Schultze,  
who was killed in the railroad yards  
and claims Schultze was wanted in  
Omaha, Neb., where he was known  
as McGraw, for murder. Papers  
found in the pockets of Schultze's  
clothing were addressed to McGraw.

### BOTH MEN ACQUITTED

New Lexington, O., Nov. 21.—After  
fifteen minutes' deliberation a ver-  
dict for the jury to return a ver-  
dict for acquittal in the case of the  
State against James Streidman and  
John Wesley Abbott. The defendants  
were accused of stealing a quantity of  
copper wire valued at about \$25 from  
the Sunday Creek Coal company's  
mine at Carrington.

### BOY PAYS FINE

Waterford, O., Nov. 21.—Clarence  
Borden, the young boy who raised  
such a disturbance in the Culp school  
a few days ago, appeared before  
Squire Goss, and was fined \$19 and  
costs which he paid. The fact that  
this had been done was not immedi-  
ately made known, and when the peo-  
ple interested did find it out they  
were exceedingly angry.

### MARION TO BE TIGHT

Marion, O., Nov. 21.—Emulating  
the action of Mayor Badger of Col-  
umbus, Mayor Schorr has instructed  
the police to close all saloons at 11  
o'clock during the week-end shut out  
the restaurants with bar rooms on  
Sunday. Next Sunday will be the  
first time that Marion restaurants  
have been closed.

### COLLEGE SWINDLER SEEN BY WIFE AT DELAWARE

Delaware, Nov. 21.—Mrs. James A.  
Dean of Dayton, wife of the alleged  
college swindler, who is in prison here  
awaiting trial under indictment for  
forgery, visited her husband yesterday.  
Since his release from the peniten-  
tiary physicians have been unable to  
determine whether Dean's mind is un-  
balanced or he is merely shamming.  
He will converse with nobody and ap-  
parently did not recognize his wife.  
His health is failing.

### ZANESVILLE HUNTER IS SHOT THROUGH BODY

Zanesville, Nov. 21.—A man known  
as the City Swindler is the re-  
sult of a hunting accident. His gun  
was accidentally discharged while he  
was climbing a fence, the entire load  
entering his stomach. A hole was  
seen clear through his body.

### NEW BROOM FACTORY

Thornville, Nov. 21.—Beech Woods  
is to have a new broom factory. Joseph  
Winegardner will be at the head  
of the organization. The new indus-  
try will no doubt prove a bonanza to  
the broom corn growers of this place.

### TO REMODEL COURT HOUSE

Coshocton, Nov. 21.—Coshocton is  
to remodel her court house at a cost  
of \$12,500.

### MR. TALLMADGE ENGAGED

Columbus, O., Nov. 21.—Dr. and  
Mrs. Homer I. Smith of Delaware  
have announced the engagement of  
their daughter, Miss Agnes, and Mr.  
Harold Tallmadge. Mr. Tallmadge is  
a son of Mr. Frank Tallmadge.

### HILDETH'S CONDITION

St. Vernon, Nov. 21.—Frank Hilde-  
th, the Knox county convict, is  
able to sit up in bed in his quarters  
in the penitentiary. This may not  
mean much, however, if the report  
that he is suffering from Bright's  
disease is true.

### Scaffolding Collapsed

Bridgeport, Conn., Nov. 21.—Three  
men were killed and several injured  
by a falling scaffolding at the new  
railroad bridge at Naugatuck Junc-  
tion. One of the injured brought here  
has a fractured skull and may die.

## GOMPERS' STEP IS INDORSED

Federation of Labor Urges Continu-  
ance of Political Activity.

### FOR INDEPENDENT ACTION

Extension of Exclusion Laws So as to  
Include All Asiatics Demanded by  
the Convention — Employment of  
Coolies in Canal Zone Denounced.  
Other Work of Delegates.

Minneapolis, Minn., Nov. 21.—The  
American Federation of Labor, which  
is holding its annual convention here,  
indorsed the political policy of Presi-  
dent Gompers during the last cam-  
paign and urged a continuance of  
activity along independent lines,  
strongly condemning, however, the  
idea of affiliating with any special  
party, and going on record as opposed  
to forming a national labor party.

Subsidized shipping, involving enlist-  
ment of the seamen employed therein  
as members of the naval reserve, was  
fiercely denounced. President Gompers  
touched extensively upon this subject  
in his annual report, pointing out that  
while purporting simply to provide  
for the voluntary enrollment of sea-  
men serving on subsidized ships, the  
bill pending in congress did in fact  
provide for the conscription of sea-  
men so enrolled in time of war.

The stands of the International  
Typographical union for an eight-hour  
day and of the textile workers in  
seeking shorter hours and more  
wages were approved, and the "no  
wage reduction" policy recommended  
by President Gompers was indorsed.  
The convention unanimously indorsed  
that portion of the president's report  
dealing with the proposed eight-hour  
law and recommended the passage of  
the bill by congress. The child labor  
resolution introduced in the United  
States senate calling for an official  
investigation of the woman and child  
labor situation in the United States  
was approved, and its passage by con-  
gress recommended. The bill calling  
for an eight-hour day for railroad  
labor was also approved. The con-  
vention officially went on record as  
inviting the representatives of the  
railroads to a joint conference for a  
consideration of labor matters con-  
nected with the recent road arbitra-  
tion bill.

The anti-injunction bill was in-  
dorsed and the injunction plan scored.  
Japanese, Chinese, Korean and Hindu  
labor were included in a sweeping de-  
nunciation of Asiatic immigration and  
a demand for further extension of the  
exclusion laws. "Slavery" was the  
term used to describe the employ-  
ment of Asiatic coolies on the Pan-  
ama canal work. "It," reads the re-  
port, "the canal can not be built ex-  
cept by the introduction of involun-  
tary servitude, it is better that it be  
not built at all."

## JOURNEY

Of Frank Gould and Wife May Result  
in the Return to America of  
Countess Anna.

New York, Nov. 21.—Mr. and Mrs.  
Frank Jay Gould have sailed on the  
Kaiser Wilhelm II. for Cherbourg,  
and with the sailing of Mr. and Mrs.  
Gould comes the first announcement  
that the former Countess de Castel-  
lane, divorced wife of Count Boni de  
Castellane, is to make an early visit  
to this country, probably returning  
with them. Mr. and Mrs. Frank  
Gould were in very high spirits as  
they stood upon the deck of the liner  
just before sailing. Asked about the  
recent rumors to the effect that they  
had agreed to disagree, Mr. Gould  
said, laughingly:

"You can say positively that there  
has been never any truth in those ab-  
surd stories. Mrs. Gould and I are  
very happy. We are going abroad to  
get rest. Yes, we shall certainly see  
our sister in France, as soon as we  
arrive there. We shall return to  
America the latter part of January.  
Will the former Countess return with  
us? That is not settled. Her plans  
are not known to us, and we shall  
first find out what her wishes are. It  
will be decided only after we arrive  
in France."

From a friends of Mr. Gould who  
was on the ship, it was, however,  
learned that Mr. and Mrs. Gould  
were quite sure that they would re-  
turn to this country with the former  
Countess de Castellane. Whether the  
children of Countess Anna would ac-  
company their mother on this visit,  
it was said, would depend entirely  
upon whether permission for the visit  
could be secured from the French  
courts or from Boni, the father of  
the boys.

New York, Nov. 21.—A telegram  
from President Roosevelt declining to  
suspend his order discharging colored  
troops of the Twenty-fifth regiment  
until the facts as known to him are  
shown to be false, but expressing his  
willingness to hear new facts bearing  
on that case, was made public by Gil-

## A Checking Account is Valuable to You.

A Checking Account provides for the convenient payment of  
bills, the transmission of money, to different points, and an ac-  
curate record of your expenditures. You should enjoy this con-  
venience—whether you handle much or little money.

We solicit your checking account—large or small—prom-  
ising you our most careful attention.
